Re: Alaska Waste – Kenai Peninsula, LLC d/b/a Alaska Waste
Fuel Surcharge for Commercial Customers in the Kenai Borough Service Area

Dear Commissioners:

This tariff filing is transmitted to you by Alaska Waste – Kenai Peninsula, LLC d/b/a Alaska Waste (Alaska Waste) in compliance with the Alaska Public Utilities Regulatory Act and 3 AAC 48.200 – 3 AAC 48.430 and the Commission’s directives for informational tariff filings issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6).

Alaska Waste, through its undersigned consultants, revises the following tariff sheet:

Tariff Sheet Number		Cancels Sheet Number		Schedule or Rule Number
Original	Revised	Original	Revised	
61.1				Additional Rates and Charges

With this filing, Alaska Waste implements a 13.5% fuel surcharge on all refuse collection services it performs for its commercial customers in the Kenai Borough Service Area with the exception of landfill fees for disposal related to Roll-On/Roll-Off service.

The basis for Alaska Waste’s fuel surcharge is a pattern of steadily increasing fuel prices. With the cost of diesel fuel continuing to rise rapidly, Alaska Waste is unable to continue to absorb these increased costs. Although Alaska Waste wished to avoid taking this action, the magnitude of recent fuel cost increases no longer allows it to do so.

Alaska Waste reviewed its current fuel costs to arrive at the proposed fuel surcharge. As part of the process of determining an appropriate fuel surcharge, Alaska Waste also

compared its fuel costs to existing published diesel price indexes which are widely used to calculate fuel surcharges for trucking and transportation industries.

Alaska Waste found a strong correlation between its actual fuel cost and national indexes published by the U.S. Government, Energy Information Administration. A comparison to the national indexes indicates that Alaska is following the national trend of skyrocketing fuel prices.

Alaska Waste will continue to monitor its fuel cost, national indexes and local conditions and consider future adjustments to the surcharge as warranted by the circumstances.

Conclusion

Alaska Waste submits this tariff as an informational filing pursuant to directives issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6) which exempt commercial refuse service from economic regulation and require informational tariff filings for commercial service. According to the Stipulation approved by that order, the Commission will not review tariff rates but will use tariff filings by commercial refuse utilities to confirm that all customers within a customer class are being treated equally, have notice of the rates to be charged for specific services, and that service will be provided in a safe, reasonable and non-discriminatory manner. Informational tariffs are generally allowed to go into effect after a thirty (30) day notice period to the public.

This filing will increase commercial rates but will not result in the termination of an existing service, conflict with any other schedule or rate, or will not in any other way adversely affect customers, or the public. This filing has no impact on regulated residential customer rates.

Alaska Waste expects that this tariff will go into effect after a thirty (30) day notice period to the public, or for bills rendered after May 1, 2008. Alaska Waste will inform the customers impacted by this fuel surcharge by publishing a notice in the Peninsula Clarion. The public notice is included with this filing as Attachment A.
