Re: Alaska Waste – Kenai Peninsula, LLC d/b/a Alaska Waste
 Commercial Rate Increase and Fuel Surcharge Decrease
 in the Kenai Borough Service Area

Dear Commissioners:

This tariff filing is transmitted to you by Alaska Waste – Kenai Peninsula, LLC d/b/a Alaska Waste (Alaska Waste) in compliance with the Alaska Public Utilities Regulatory Act and 3 AAC 48.200 – 3 AAC 48.430 and the Regulatory Commission of Alaska’s (Commission) directives for informational tariff filings issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6).

Alaska Waste, through its undersigned consultants, revises the following tariff sheets:

Tariff Sheet Number		Cancels Sheet Number		Schedule or Rule Number

52.3				Kenai/Soldotna Comm. Service Area Description

	58, 1 st	58		Kenai Borough Roll-On/Roll-Off Container Rates
	61.1, 7 th		61.1, 6 th	Area Wide Commercial Fuel Surcharges

With this filing, Alaska Waste makes multiple changes to its commercial rates. In July 2009, Alaska Waste filed a request for a permanent residential rate increase for the

Kenai Borough service area. Alaska Waste has also experienced increased expenses related to its commercial operations. The Kenai Borough service area is very large; therefore, Alaska Waste has developed three geographic zones to better reflect the cost of serving commercial customers throughout the Kenai/Soldotna service area. A fourth geographic zone covers the remaining portions of Alaska Waste's Kenai/Soldotna service area. Alaska Waste increases its current Kenai/Soldotna dumpster service rates by 4.0% and adds dumpster service rates for the second and third commercial zones. Alaska Waste removes rates for service outside Seward city limits and specifies that commercial customers located within Kenai/Soldotna Commercial Zone 4 will be charged Kenai/Soldotna Commercial Zone 3 rates and will also incur an additional charge of \$3.50 per mile round trip. Finally, as a result of the addition of Kenai/Soldotna commercial zones, Alaska Waste became aware that Homer Zones 2 and 3 were not defined in its tariff. Alaska Waste has redefined Homer Zones 2 and 3 as "within city limits" and "outside city limits" and a map and zone descriptions have been added to the tariff.

In addition to changes to its commercial rates, Alaska Waste also modifies its commercial fuel surcharge applied to all rates and charges for refuse collection services it performs for its commercial customers in the Kenai Peninsula Borough service area with the exception of landfill fees for disposal related to Roll-On/Roll-Off service. Alaska Waste has reviewed its fuel costs related to the provision of commercial services in the Kenai Peninsula Borough service area and has determined that a fuel surcharge decrease is warranted. The current commercial fuel surcharge is 8.6% and will be decreased to 8.0%. Alaska Waste will continue to monitor its fuel cost, trends and local conditions and consider future adjustments to the surcharge as necessary.

Alaska Waste submits this tariff as an informational filing pursuant to directives issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6), which exempt commercial refuse service from economic regulation and require informational tariff filings for commercial service. According to the Stipulation approved by that order, the Commission will not review tariff rates but will use tariff filings by commercial refuse utilities to confirm that all customers within a customer class are being treated equally, have notice of the rates to be charged for specific services, and that service will be provided in a safe, reasonable and non-discriminatory manner. Informational tariffs are generally allowed to go into effect after a thirty (30) day notice period to the public.

This filing will increase commercial service rates and decrease the commercial fuel surcharge but will not result in the termination of an existing service, conflict with any other schedule or rate, or will not in any other way adversely affect customers, or the public.
