Re: Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste
Fuel Surcharge Decrease for Commercial Customers
in the Anchorage, Eagle River, Girdwood, Portage, Whittier and Mat-Su Areas

Dear Commissioners:

This tariff filing is transmitted to you by Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste (Alaska Waste) in compliance with the Alaska Public Utilities Regulatory Act and 3 AAC 48.200 – 3 AAC 48.430 and the Regulatory Commission of Alaska’s (Commission) directives for informational tariff filings issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6).

Alaska Waste, through its undersigned consultants, revises the following tariff sheets:

Tariff Sheet Number		Cancels Sheet Number		Schedule or Rule Number
Original	Revised	Original	Revised	
	131, 5th		131, 4th	Additional Rates and Charges

With this filing, Alaska Waste modifies its commercial fuel surcharges which apply to all commercial refuse collection services including hourly rates involving vehicle time such as standby time with the exception of per pound landfill charges for Roll-On/Roll-Off customers in the following service areas: Anchorage, Eagle River, Whittier, Portage, Girdwood and the Mat-Su Borough.

When Alaska Waste first filed a tariff to implement commercial fuel surcharges in April 2008, it stated that it would continue to monitor its fuel costs, national indexes and local conditions and determine appropriate adjustments to the surcharges. Since that time the cost of diesel fuel rose sharply through the summer then began to decline in the fall of 2008. Alaska Waste’s current fuel costs have decreased since its last fuel surcharge adjustment that was implemented on February 1, 2009. This filing reflects a decrease to

the commercial fuel surcharge in Anchorage, Eagle River, Whittier, Girdwood and Portage from 7.1% to 4.1%. In the Mat-Su Borough service area the commercial fuel surcharge will decrease from 8.7% to 5.2%.

Alaska Waste will continue to monitor its diesel fuel prices over the next several months and update its fuel surcharges appropriately.

Conclusion

Alaska Waste submits this tariff as an informational filing pursuant to directives issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6), which exempt commercial refuse service from economic regulation and require informational tariff filings for commercial service. According to the Stipulation approved by that order, the Commission will not review tariff rates but will use tariff filings by commercial refuse utilities to confirm that all customers within a customer class are being treated equally, have notice of the rates to be charged for specific services, and that service will be provided in a safe, reasonable and non-discriminatory manner. Informational tariffs are generally allowed to go into effect after a thirty (30) day notice period to the public.

This filing will decrease commercial rates but will not result in the termination of an existing service, conflict with any other schedule or rate, or will not in any other way adversely affect customers or the public. This filing has no impact on regulated residential customer rates.

Alaska Waste expects that this tariff will go into effect after a thirty (30) day notice period to the public, or for bills rendered on or after May 1, 2009. Alaska Waste will inform the customers impacted by this fuel surcharge by publishing a notice in the Anchorage Daily News. The public notice is included with this filing as Attachment A.
