Re: Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste
 Commercial Rate Modification for the Eagle River/Chugiak Service Area and
 Increase to Area Wide Commercial Fuel Surcharge

Dear Commissioners:

This tariff filing is transmitted to you by Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste (Alaska Waste) in compliance with the Alaska Public Utilities Regulatory Act and 3 AAC 48.200 – 3 AAC 48.430 and the Regulatory Commission of Alaska’s (Commission) directives for informational tariff filings issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6).

Alaska Waste, through its undersigned consultants, revises the following tariff sheets:

Tariff Sheet Number		Cancels Sheet Number		Schedule or Rule Number
Original	Revised	Original	Revised	
	74, 1 st	74		Eagle River Dumpster Rates
	75, 1 st	75		Eagle River Dumpster Rates

76.3				Eagle River Dumpster Rates
76.4				Eagle River Dumpster Rates
76.5				Eagle River Dumpster Rates
76.6				Eagle River Dumpster Rates
76.7				Eagle River Dumpster Rates
76.8				Eagle River Dumpster Rates
	131, 9 th		131, 8 th	Area Wide Commercial Fuel Surcharge

With this filing, Alaska Waste makes multiple changes to its commercial rates. The Alaska Waste service area is very large, encompassing Anchorage, Eagle River/Chugiak, Girdwood, Portage and Whittier. In an effort to more accurately reflect the cost of serving customers throughout this service area, Alaska Waste has developed separate rates for the customers served in the Eagle River/Chugiak area. As a result, some dumpster class customers will experience a slight increase and others a slight decrease in rates. Class IV dumpster rates reflect a substantial decrease from the currently approved Anchorage rates. Alaska Waste has revised its current dumpster service rates to include rates for 2, 2.6, 3, 3.3, 4, 6 and 8 cubic yard containers. Rates are available for up to six pick-ups per week, as well as for every other week and once a month, for all containers sizes. Rates for extra pick-ups for scheduled customers and rates for pick-up for non-scheduled customers have also been added.

In addition to modifying its commercial dumpster rates with this filing, Alaska Waste also modifies its area wide commercial fuel surcharge which applies to all commercial refuse collection services including hourly rates involving vehicle time such as standby time with the exception of per pound landfill charges for Roll-On/Roll-Off customers. Alaska Waste has reviewed its fuel costs related to the provision of commercial services in the Anchorage, Eagle River/Chugiak, Girdwood, Portage and Whittier service areas and has determined that a fuel surcharge increase is warranted. This filing reflects an increase to the currently approved commercial fuel surcharge from 4.4% to 4.5%. Alaska Waste will continue to monitor its fuel costs, trends and local conditions and consider future adjustments to the surcharge as necessary.

Alaska Waste submits this tariff as an informational filing pursuant to directives issued in Order Nos. U-07-32(6)/U-07-33(5)/U-07-34(5)/U-07-35(5)/U-07-36(6), which exempt commercial refuse service from economic regulation and require informational tariff filings for commercial service. According to the Stipulation approved by that order, the Commission will not review tariff rates but will use tariff filings by commercial refuse utilities to confirm that all customers within a customer class are being treated equally, have notice of the rates to be charged for specific services, and that service will be provided in a safe, reasonable and non-discriminatory manner. Informational tariffs are generally allowed to go into effect after a thirty (30) day notice period to the public.

This filing will increase some commercial service rates, reduce some commercial rates and add some new commercial rates, but will not result in the termination of an existing service, conflict with any other schedule or rate, or will not in any other way adversely affect customers, or the public. This filing has no impact on regulated residential rates.

Page No. 3

Alaska Waste expects that this tariff will go into effect after a thirty (30) day notice period to the public, or for bills rendered on or after July 30, 2010. Alaska Waste will inform the customers impacted by this commercial rate increase filing by publishing a notice in the Anchorage Daily News. The public notice is included with this filing as Attachment A.

NOTICE OF INFORMATIONAL TARIFF FILING

Alaska Pacific Environmental Services Anchorage, LLC d/b/a Alaska Waste (Alaska Waste) hereby gives notice that TA42-692 was filed with the Regulatory Commission of Alaska (Commission) on June 30, 2010. With this informational filing, Alaska Waste makes multiple changes to its commercial rates. Alaska Waste has developed separate rates for the customers served in the Eagle River/Chugiak area. As a result, some dumpster class customers will experience a slight increase and others a slight decrease in rates. Class IV dumpster rates reflect a substantial decrease from the currently approved Anchorage rates. Alaska Waste has revised its current dumpster service rates to include rates for 2, 2.6, 3, 3.3, 4, 6 and 8 cubic yard containers. Rates are available for up to six pick-ups per week, as well as for every other week and once a month, for all containers sizes. Rates for extra pick-ups for scheduled customers and rates for pick-up for non-scheduled customers have also been added.

Alaska Waste also modifies its area wide commercial fuel surcharge which applies to all commercial refuse collection services including hourly rates involving vehicle time such as standby time with the exception of per pound landfill charges for Roll-On/Roll-Off customers. This filing reflects an increase to the currently approved commercial fuel surcharge from 4.4% to 4.5%.

Alaska Waste expects this informational tariff filing to go into effect after a thirty (30) day notice period to the public, or for bills rendered on or after July 30, 2010.
